## Objective

---

- Motivated Computer Science student with a strong foundation in software development, seeking an opportunity to expand technical skills in the software development lifecycle. Dedicated to fostering innovation and contributing to impactful projects in a collaborative environment.

## Education

---

**University of Wisconsin Stout** – Menomonie, WI

May 2024 – Present

Bachelor of Science in Computer Science, Cyber Security and SSD – GPA 3.845

*Expected Graduation Date: December 2026*

Relevant Courses

- Data Structures and Algorithms with C++ (CS 244)
- Software Engineering Principles (CS 358)
- Linux Systems & Network Admin (CNIT 301)
- Database Systems (CS 324)
- Algorithm Design and Analysis (CS 354)

**Airmen Leadership School** – Holloman AFB, NM

June 2023 – July 2023

Professional Development of Leadership Skills

- Developed leadership and communication skills through structured training in public speaking feedback delivery, and professional writing

## Projects

---

**Software Engineering Principles** – Sudoku Solver

- Designed and developed a program that takes user input for the starting sudoku board and then solves it using backtracking. Gained further understanding of breaking down problems to solve using the backtracking method.

**Algorithm Design and Analysis** – Analyzing Fibonacci Sequence

- Developed multiple different ways to calculate Fibonacci numbers, from basic recursion to using memoization, which is a new concept to me and reduced my Big O from  $2^n$  to  $n$  (linear time)

## Experience

---

**Amazon** – Eau Claire, WI

May 2024 – Present

Warehouse Associate

**United States Air Force** – Holloman AFB, NM

April 2018 – April 2024

Dedicated Crew Chief

## Technical Skills

---

- Programming Languages: Java, C++, PHP, HTML, MySQL, C#
- Tools & Technologies: Basic Software Development Lifecycle, and database integration
- Testing: Manual and basic automated testing
- Google Cybersecurity Certificate through Hiring Our Heroes on Coursera
- Linux Pro Certificate through CompTIA/TestOut
