Objective

- Motivated Air Force Veteran studying Computer Science, strong foundations in communication, collaboration, and fault isolation. Excited to learn and willing to learn new concepts, create impacts and to be a member of your team.

Education

University of Wisconsin Stout – Menomonie, WI

May 2024 – Present

Bachelor of Science in Computer Science, Cyber Security and SSD – GPA 3.845

Course Work

- Computer Architecture (CS 441)
- Formal Languages & Automata (MSCS 271)
- Software Engineering Practicum (CS 458)
- Database Systems (CS 324)
- Algorithm Design and Analysis (CS 354)
- Workstation and Server (CNIT 361)

Airmen Leadership School – Holloman AFB, NM

June 2023 – July 2023

Professional Development of Leadership Skills

- Developed leadership and communication skills through structured training in public speaking, feedback delivery, and professional writing

Projects

Software Engineering Practicum – International Image Interoperability Framework Manifest Editor

- Collaborated with six member team to design, create, and develop a web tool to create, edit, and export IIIF Manifest JSON documents, utilizing TypeScript, Git Blob, and safe versioning practices.

Bracco Medical Technologies Internship – Working On Software Development Team

- Greatly developed my understanding of C#, PostgreSQL, MySQL, MVVM, Python, Azure DevOps, Scrum practices, AGILE, and versioning with Git, through completing countless tickets from the main development board accelerating the product towards a bug free state.

Workstation and Server – Dog Out of Water Alert System

- Created a device utilizing an ESP32-S3-devkitc, HX711 weight sensor, and a load cell. Utilizing C++, expert soldering, Git, Google SMTP Service, and a few key Arduino libraries, I created a system that would text me when my dogs water dish was below a certain threshold.

Experience

Bracco Medical Technologies – Eden Prairie, MN

May 2026 – September 2026

Software Engineering Intern

Amazon – Eau Claire, WI

May 2024 – January 2026

Warehouse Associate

United States Air Force – Holloman AFB, NM

April 2018 – April 2024

Dedicated Crew Chief

Technical Skills

- Programming Languages: C#, Java, C++, MySQL, PostgreSQL, MVVM, Git, Azure DevOps, Python
- Microsoft Office Specialist: Excel Associate Certificate
- Google Cybersecurity Certificate through Hiring Our Heroes on Coursera
- Linux Pro Certificate through CompTIA/TestOut
